Nos renovamos para mejorar, para superarnos. La innovación es nuestra decisión para conseguirlo, para poner en tus manos nuevas funcionalidades, nuevos materiales, nuevos conceptos. Queremos aportar innovación en el baño, en las sensaciones, en las emociones, en la vida...

We renew our ideas to improve, to reach even further. Innovation is the method we have chosen to achieve our goals, through innovation we place into your hands the very latest in practical solutions, new materials and concepts. We strive to bring innovation to the Bathroom, in terms of the sensations, the emotions, in life itself...

Renovamo-nos para melhorar, para nos superarmos. A inovação é a nossa decisão para o conseguir, para pôr nas suas mãos novas funcionalidades, novos materiais, novos conceitos. Queremos proporcionar inovação na casa-de-banho, nas sensações, nas emoções, na vida...

AROMATHERAPY

Envuelva el baño en las fragancias más exquisitas para conseguir relajarse, tonificarse o darle una cura de belleza a su piel. Hablar de aromas es cerrar los ojos y evocar innumerables imágenes que vienen a nuestra mente. Cuando inyectamos aire aromático en el agua, proveniente del aceite esencial elegido, creamos una atmósfera especial y actuamos de una forma beneficiosa para nuestro organismo, transmitiéndole sensaciones de bienestar. El secreto es la combinación de aromas con propiedades específicas para que cada baño le reporte un sinfín de beneficios y placer.

Immerse yourself in the most exquisite fragrances, allowing yourself to relax completely, to tone or award yourself a beautifying treatment for your skin. To speak of aromas is to close your eyes and evoke the innumerable images that come into your mind. When we inject aromatic essences, that come from previously selected oils, into water, we create a very special and beneficial atmosphere, giving the body the sensation of well-being. The secret of aromatherapy lies in the combination of aromas with specific properties, so that with each and every bath, one can feel the true benefits and pleasure.

Envolva o banho nas fragrâncias mais esquisitas para conseguir relaxar-se, tonificar-se ou dar uma cura de beleza à sua pele. Falar de aromas é fechar os olhos e evocar infinidade de imagens que acodem à nossa mente. Quando inyectamos ar aromático na água, proveniente do óleo essencial escolhido, criamos uma atmosfera especial e actuamos de forma benéfica no nosso organismo, transmitindo sensações de bem-estar. O segredo é a combinação de aromas com propriedades específicas para que cada banho lhe ofereça infatigáveis benefícios e prazer.

HIGIENIC SYSTEM

La higienización de las conducciones de una bañera de hidromasaje reduce la posibilidad de desarrollo de gérmenes. Entre las múltiples ventajas de Higienic System está su exclusivo sistema de pulverización directa en las conducciones, realizándose todo el proceso de manera automática una vez accionado el sistema. De esta manera se consigue la absoluta comodidad por parte del usuario. Otra gran ventaja es su gran ahorro, puesto que para su funcionamiento no necesita agua, siendo también más respetuoso con el medio ambiente. Incluye prestaciones de seguridad para que no sea accionado durante el baño u ocasionalmente. La higienización le ofrece el entorno perfecto en materia de sanidad para sus momentos de relax y bienestar.

The disinfection of the hydromassage system greatly reduces the possibility of the development of germs or bacteria. Between the many advantages of de Higienic System is its exclusive direct pulverization system, automatically activated once the system is in use, guaranteeing absolute comfort for the user. Another fantastic advantage of the Higienic System is its capacity to save our natural resources, since it does not require water, thus respecting our environment even more. The system itself includes certain security features, safeguarding against it being activated while the bath is being used, or against its accidental activation. The Higienic System offers a perfect, healthy environment to fully enjoy your moments of relaxation and well-being.

A higienização das condutas de uma banheira de hidromassagem reduz a possibilidade de desenvolvimento de germes. Entre as múltiplas vantagens do Higienic System encontra-se o seu exclusivo sistema de pulverização directa nas condutas, realizando todo o processo de maneira automática após ter accionado o sistema. Desta maneira conseguimos o mais absoluto conforto do utilizador. Outra grande vantagem do Higienic System é a grande poupança que oferece, dado que para o seu funcionamento não precisa de água, sendo também mais respeitoso com o meio ambiente. Inclui dispositivos de segurança para que não possa accionar-se durante o banho ou de forma accidental. A higienização oferece-lhe o ambiente perfeito em termos de saúde para os seus momentos de relax e bemestar.

TEMP CONTROL

Mantener la temperatura deseada del agua durante un baño de hidromasaje le permite disfrutar al máximo de sus prestaciones. Temp Control elimina descensos de la temperatura del agua, adaptándose a los gustos de cada persona y garantizando que la sesión de hidromasaje se realice a una temperatura constante. Este dominio es importante para conseguir el máximo relax y eliminar las tensiones acumuladas en sesiones de media y larga duración.

The possibility of maintaining the desired water temperature during a session of hydromassage allows for a greater enjoyment of the benefits on offer. Temperature control eliminates reductions in water temperature, adapting to the personal preference of each person, and guaranteeing a constant water temperature for the duration of the hydromassage session, fundamental in eliminating accumulated tension and guaranteeing the sensation of maximum relaxation.

Manter a temperatura desejada da água durante um banho de hidromassagem permite-lhe desfrutar ao máximo das suas prestações. O Temp Control elimina as descidas de temperatura da água, adaptando-se aos gostos de cada pessoa e garantindo que a sessão de hidromassagem será realizada uma temperatura constante. Este domínio é importante para conseguir o máximo relax e eliminar as tensões acumuladas em sessões de média e longa duração.

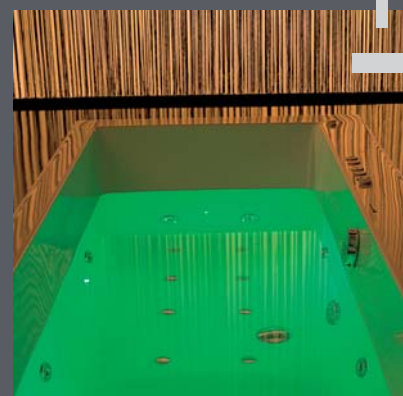

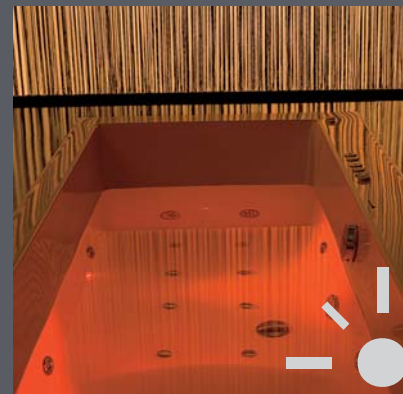

CROMOTHERAPY

El color de la luz tiene incidencia sobre nuestro organismo actuando físicamente sobre él y estimulando los procesos de percepción que contribuyen a nuestro bienestar. Así la cromoterapia nos ayuda a obtener un cuidado más completo de nuestro cuerpo y mejorar nuestro estado de ánimo.

The colour of the Light has a particular effect on the body, and therefore on our well-being. Our body responds to chromatic emissions, thus stimulating the perception processes that contribute to our well-being. Cromotherapy helps us to obtain a better, more complete attainment of body care and a healthy state of mind.

A cor da luz incide no nosso organismo actuando fisicamente nele, estimulando os processos de percepção que contribuem ao nosso bemestar. Assim a cromoterapia ajuda-nos a obter um cuidado mais completo do nosso corpo e a melhorar o nosso estado de ânimo.

La serie Global está marcada por la belleza de lo sutil.

Una colección completa de piezas para el baño que sobrepasan el tiempo y nos comunican refinamiento en sus detalles.

Es una creación para disfrutar en la vida diaria, recreándose al entrar en contacto con ella.

The Global series is characterized by its subtle beauty.

Resulting in a complete collection of timeless products, full of details that fully communicate their refined style.

A creation to be fully enjoyed during our everyday lives, enchanting us through our interaction.

A série Global está marcada pela beleza do sutil.

Uma coleção completa de peças para a casa-de-banho que ultrapassam o tempo e nos comunicam refinamento nos seus detalhes.

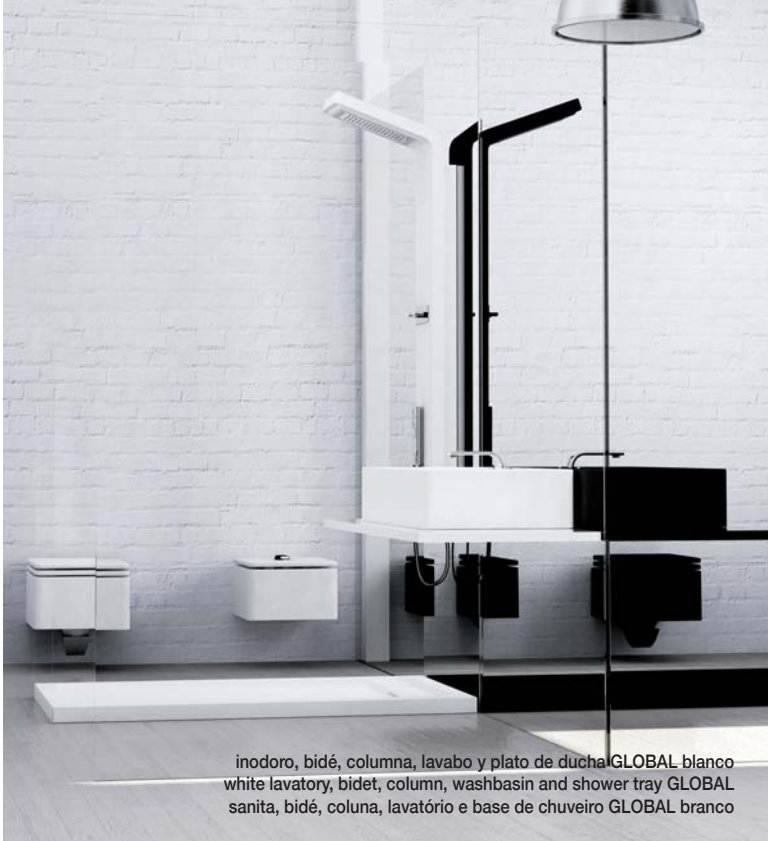

É uma criação para desfrutar na vida diária, recreando-se ao entrar em contacto com ela.

Una serie para disfrutar de la experiencia de la ducha. El conjunto Format plantea el espacio de ducha con entrada a modo de laberinto y la posibilidad de ajustarse al espacio que se necesite. El conjunto base está formado por el plato y el cerramiento a dos o tres paredes, incorporando siempre el rociador de ducha en la barra superior del cerramiento.

Format is a range of products designed for full enjoyment of the shower experience. The combination raises the concept of a labyrinth style entrance and the possibility of adjusting the product to the confines of the space required. The concept of the combination is derived from the shower tray and its enclosure between two or three walls, with the fixed shower head incorporated into the upper metal beam.

Uma série para desfrutar da experiência do duche. O conjunto format apresenta o espaço de duche com entrada em forma de labirinto e a possibilidade de se ajustar ao espaço necessário. O conjunto base é composto pela base e o fecho a duas ou três paredes, incorporando sempre o chuveiro de duche na barra superior do fecho.

LUDIC

manufactured using
scene®
MATERIA

La serie Ludic es diversión, un diseño singular que reinterpreta dos mundos, lo antiguo y lo moderno. Un espacio caracterizado por su zona de ducha con cortina, que aporta el movimiento y se integra en el plato de manera funcional. Las formas características de Ludic, el círculo y el rectángulo, se desarrollan en todos sus elementos, como se puede apreciar en los lavabos de uno y dos senos murales.

The Ludic series is all about pure enjoyment, a unique design which reinterprets two worlds, the old and the new. A combination characterized through its shower zone equipped with curtain, raising the concepts of movement and stylish, but practical, integration with the shower tray. The characteristic forms of Ludic, the circle and the rectangle, display themselves in all of its elements, as can be appreciated through the single and double wall mounted washbasins.

A série Ludic é diversão, uma concepção singular que reinterpreta dois mundos, o antigo e o moderno. Um espaço caracterizado pela sua zona de duche com cortina, que proporciona o movimento e se integra na base de forma funcional. As formas características da ludic, o círculo e o rectângulo, desenvolvem-se em todos os seus elementos, tal como se pode apreciar nos lavatórios de uma e duas bacias, mural.

MATERIA

Es una composición avanzada de materias minerales, polímeros orgánicos y aditivos específicos cuya finalidad es la consecución de formas complejas por molde. Lo podemos situar entre los materiales denominados "solid surface", es decir un material sintético homogéneo que no tiene piel, por lo que la superficie expuesta tiene las mismas propiedades que el interior. Está formulado y producido para la consecución de productos finales destinados a la arquitectura. Especialmente interesante es su aplicación en el ámbito del baño debido a sus excelentes características físicas, mecánicas, químicas e higiénicas. Estas propiedades, junto con la belleza resultante de las piezas por su aspecto y diseño, lo hacen resaltar en su comparación con otros materiales.

SUS CUALIDADES PRINCIPALES SON:

- ✓ Gran rigidez
- ✓ Resistencia a agentes químicos
- ✓ Durabilidad
- ✓ Agradabilidad al tacto
- ✓ Variedad de formas para obtener las soluciones técnicas y estéticas

Conozca más acerca de las características de este material y sus posibilidades, sabiendo con certeza el resultado que le va a ofrecer.

Existe más información disponible, también relativa a las posibilidades en formas y colores, si la desea háganos llegar su solicitud.

An advanced composition of mineral compounds, organic polymers and specific additives which are designed to be moulded. It is also known as synthetic stone and is included in a group of «solid surface» materials - skinless synthetic materials whose outermost surfaces have the same properties as their interiors. The synthetic resin component in its structure gives it a certain amount of elasticity, while the mineral compounds act as a kind of shield that provide resistance to wear and tear, and also give it anti-slip qualities.

PRINCIPAL CHARACTERISTICS:

- ✓ Extremely rigid
- ✓ Resistant to chemical agents
- ✓ Hard-wearing
- ✓ Pleasant to the touch
- ✓ Homogeneous

Learn more about both the characteristics and possibilities of Scene Materia, gaining an insight into the results on offer.

Should you wish for further information, relative to the possibilities on offer in terms of forms or colours, please do not hesitate to contact us.

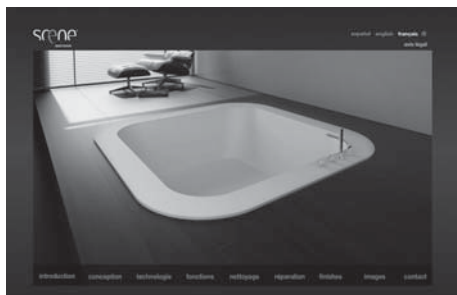

Scene Materia é uma composição avançada de materiais minerais, polímeros orgânicos e aditivos específicos cuja finalidade é a realização de formas complexas por molde. Podemos situá-lo entre os materiais denominados "solid surface", ou seja um material sintético homogéneo que não tem pele, pelo que a superfície exposta tem as mesmas propriedades que o interior. Está formulado e produzido para a obtenção de produtos finais destinados à arquitetura. Especialmente interessante é a sua aplicação no âmbito do banho devido às suas excelentes características físicas, mecânicas, químicas e higiénicas. Estas propriedades, juntamente com a beleza resultante das peças pela sua aparência e design, fazem-no destacar em comparação com outros materiais.

AS SUAS PRINCIPAIS QUALIDADES SÃO:

- ✓ Alta rigidez

marmek®

Es un compuesto compacto realizado con resinas y cargas minerales derivadas del mármol que le otorga una elevada dureza y excelentes características al material para su uso en el baño. El acabado superficial puede personalizarse en infinitas posibilidades y presenta una excelente resistencia a la limpieza y a productos de higiene habituales. El material tiene altas prestaciones antibacterianas y es especialmente adecuado para la realización de platos de ducha por sus comportamientos antislip.

A compact composition made from resins and minerals derived from marble, which bestow it a high level of hardness combined with excellent characteristics for its use within the bathroom. The surface finish offers infinite possibilities in terms of personalization and presents an excellent resistance to both cleaning and regular hygiene products. The material itself has high antibacterial qualities and is extremely suitable for the manufacturing of shower trays, due to its non slip nature.

É um composto compacto feito com resinas e cargas minerais derivadas do mármore que dá uma elevada dureza e excelentes características ao material para o seu uso no banho. O acabamento superficial pode ser personalizado em infinitas possibilidades e possui uma excelente resistência à limpeza e a produtos de higiene habituais. O material tem alta prestação antibacteriana e é especialmente adequado para a realização de bases de duche pelo seu comportamento antiderrapante.

ACRYLIC

100% PMMA. Nuestra producción en acrílico de colada de uso sanitario está situada en el mejor nivel que se puede encontrar en el mercado. La utilización de esmerados procesos productivos nos permite trabajar con las más altas calidades del sector con costes controlados.

100% PMMA. Our sanitary acrylic production is of the very highest level that can be found in today's market. The implementation of pinpoint, finely tuned production processes and methods allow us to work with materials of the very highest quality, as well as control costs.
